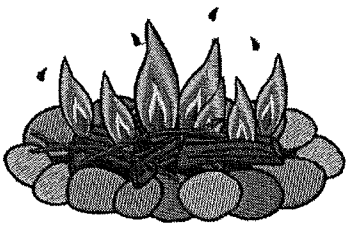
Year 9 Outdoor Education & Recreation



App Design

Fire Making

Task:

To design an App for a smart phone aimed at guiding people on how to safely create and extinguish a camp fire.

Your App design must include the following:

1. Information on each of the ***three*** types of fuel (wood) required to build a good fire
   - How big is each? How much of each? Where to get each? Etc..
2. Information on how to construct the fire. What type of fire lay do you suggest? (eg: tee pee)
3. Safety information on the following:
   - Where should you build your camp fire?
   - How should you light your fire?
   - How should you extinguish your fire?

Due Date:

You will be given one week to complete the task, including two periods of class time.

Marking Guide:

Criteria	Marks
App design is completed and submitted on time	/2
App includes information on all three types of wood for a fire	/6
App includes information on at least one fire lay (ie: how to construct the fire)	/2
App includes fire safety information on the following: - Fire location - Fire set up - Fire extinguishing	 /2 /2 /2
App is well presented. Is neat, has colour, pictures etc...	/4
Total:	/20
